

Timothy J. Drewett, Sr.
Project Manager

Experience

Mr. Drewett's experience spans more than twenty (22) years in the State of Florida including all levels of involvement in field activities as well as office and management responsibilities. He has provided surveying and mapping services on many high profile federal, state, county, municipal and private projects such as international airports, sports stadiums, power, water and reclaimed water plants, interstate heavy highways, transmission mains, high-rise/commercial buildings and subdivisions performing construction layout and as-built surveys along with boundary, topographic and hydrographic surveys for design. He has extensive experience in the use of Global Positioning Systems (GPS) and utilizes this experience in all aspects of surveying including 3D machine control, construction lay-out/as-builts and topographic surveys for design. As project manager of Ferguson Surveyors, PLLC, Mr. Drewett is responsible for contract administration, quality control and technical procedures in the production of survey projects which include client relations, estimating, project tracking and crew efficiency. Mr. Drewett is committed to providing the highest quality of professional service in order to meet our client's needs.

Well-versed in the use of Spectra Precision Survey Pro, Microsoft® Excel, AutoCAD®, Autodesk® Civil 3D®, Carlson Survey, Survey Robotics and GPS. Skilled in computations for all aspects of surveying and mapping.
